## How's The Drive *from* Winnipeg?

The drive from Winnipeg takes roughly an hour, and is on divided highway 3/4 of the way. There are gas stations and convenience stores along the route, and when in season you'll find roadside vendors often selling local vegetables. After you leave the city you'll pass open fields with crops, cattle and bison, and soon find yourself in forested areas.

## When you arrive...

When you arrive, visit our country office and we'll check you in. If we're not at the office, just pick up the phone by the office door, dial the number on the sign, and we'll come down and check you in. (And, in case you've forgotten any of the little things, we also have a small store stocked with cottage-style snacks, bug spray, toiletries, and more!)
